JOIN US FOR **FREE VIRTUAL** CONNECTIONS MATTER TRAININGS

Did you know the safe and secure relationships our faith communities make support brain development and build hope? Ever wonder how trauma-sensitive knowledge and practices can help support the families and communities you serve?

Join us for one of our **SEVEN VIRTUAL REGIONAL TRAININGS** to learn more about the healing power of relationships and building resilience. Connections Matter explores the little things we can all do each day to build stronger and healthier families and communities. The goal is to help you inventory the great things you are already doing and what opportunities you have to form stronger community attachments.
